Dear Ms. McKenna:

Please consider this letter as my expression of interest to be reconsidered for the position of the Public Member or the Alternate Public Member of the Local Agency Formation Commission of Monterey County (LAFCO).

As a lifelong resident of Monterey County and a member of a pioneer family that settled on a Spanish land grant in the Salinas Valley in 1860, I continue to have a keen interest in the future of the county and how the county will serve the needs of those who work in the county.

There continues to be an unmet need to provide affordable housing for the people who are employed in the two basic industries of the county, tourism and agriculture. The resources of water, natural beauty of open space, and agricultural land need to be protected and preserved through the discouragement of urban sprawl. Infrastructure needs to be in place or provided for prior to new development in order to provide efficient delivery of government services.

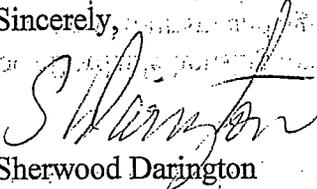

The area and service capacity of cities and special districts and the review of their proposals to meet these needs while protecting the existing resources of the county are of utmost importance in maintaining the quality of life of county residents.

I believe that my service on LAFCO as the Alternate Public Member during the last ten years has been beneficial to the residents of Monterey County.

I have enclosed my resume for your review.

Thank you for your consideration.

Sincerely,

  
Sherwood Darington

Dear Commissioners,

Please accept this letter and my enclosed resume as application for reappointment as the Public Member to the Monterey County Local Agency Formation Commission.

It has been my distinct pleasure to have spent the last eight years serving with each of you as we carefully examine the various growth issues that are crucial to the future of our County and region.

When I first sought appointment to LAFCO, I wanted to expand my involvement in public service by bringing my years of experience in urban planning, and my life-long familiarity with every part of Monterey County to the Commission. I hope that my experience as a professional urban planner has facilitated discussions and has been beneficial to my fellow Commissioners.

A few months ago, as I neared the end of my current term, I was struck by how many people have approached me and encouraged me to seek reappointment. These people, some from the Peninsula, the Salinas Valley, North County, have all been very supportive of my contributions to the Commission and encouraged me to seek another term.

Therefore, I ask the Commission to consider reappointing me as the Public Member to LAFCO. My combination of experience on the Commission, my twenty years of experience as a professional urban planner, along with support from so many diverse areas of the County provides a unique combination of qualifications to serve on the Commission.

I look forward to the opportunity to continue to serve with each of you.

Sincerely,

Vince DiMaggio

Re: Public Member Commissioner

Ms. McKenna:

As a resident of Monterey County, I would like to offer my services as a public member of the LAFCO commission.

A cursory review of my biography and CV will show that I am a retired federal employee and have a Masters degree in Public Administration from Golden Gate University. As a retired person who was involved in government at the local and federal levels for over 30 years, loves this area and will always reside here, I believe my appointment would provide a unique and positive perspective to the LAFCO board.

Thank you for your consideration. I hope to hear from you soon.
